Over $150,000,000 are invested in the Malt and Brewing business in the United States.

SAFE INVESTMENT.

NEW ENGLAND MALT CO.,

209 WASHINGTON STREET,

GROUND FLOOR ROGERS BUILDING, OPP. STATE STREET, BOSTON.

One of our machines can be seen at **No. 209 WASHINGTON ST., Room A.** Full size machine costing $1000 will make as much Malt by our new process, and do it better than a Malt House costing $20,000. This system, now in successful operation, has received the first premium and a gold medal. About 9,000,000 bushels of Malt are made annually in the New England States. This Company nets 15 cents per bushel, this means over 200 per cent profit. Figure for yourself and see what dividend you will receive by buying the stock now, at this low minimum price. This is a practical home business; an enterprise in which thorough business men well known in our community, are interested. This Co. was incorporated and organized in strict accordance with the requirements of law. This stock has advanced from $5 to $10, thence from $10 to $15, and is now selling at $15, but will undoubtedly advance to $20 soon. We feel confident it will soon be at par, $100; about 250 stockholders, and the Company only a few months old; 535 shares sold in a week. This is more rapid progress than was made in the Telephone stock, which at one time sold at $5 and then went as high as $1500 per share, and we see no reason why this stock should not do as well. The time to buy is when the stock is low. This stock is full paid and non-assessable. A golden opportunity for business men to form Companies similar to this in other states.

We solicit a thorough investigation of the value and utility of the machine, and of the affairs and prospects of the Company. Our new machine for the manufacture of Malt, is simple and effective, there being a difference of one-half in time, and more than one-half in the expense in favor of our machine over the old method now in use, dispensing with costly buildings, large areas, and skilled workmen. The process of germinating and drying the Malt, is performed in our machine by automatic means, thus dispensing with hand labor which is expensive and unsatisfactory. It will also be observed that our method of heating is comparatively inexpensive the exhaust or waste steam being used for this purpose and the chambers are maintained at any desired temperature, regulated by thermometers, a result never before attained in any other Malting process. We construct these machines with a capacity varying from 10 to 1000 bushels or more.

See what the rural press says about the stock of the New England Malt Company; look at the *New England Trader*, *Roxbury Advocate*, *Brockton Gazette*, *Cambridge Tribune* and other papers. People can buy from one to one hundred shares at $15 per share. by sending their money to the Company or any Bank in Boston, and get their certificate of $100 shares, at $15 per share for the present, or later at the current price of the stock.

Call and examine Machine or send for Malt Book, and price list of machines and terms &c., &c., to Co.'s office,

ELMER LITTLEFIELD. JAMES E. HUNTRESS.

INTRODUCTORY.

Again we present our patrons and the public with a new edition of the CAMBRIDGE DIRECTORY, No. 34 of the regular series, for their use and approval. We have spared no trouble or expense in the canvass and compilation of this issue of the work to make it in all respects as correct and reliable as is possible for a work of this kind.

The difficulty of compiling a city directory is seldom understood, and is not easily explained, dependent as we are upon local patronage, it is an absolute necessity that we have the support of the entire business community, who derive the largest portion of the benefit of such a work.

A city directory contains a great amount of information concerning the public, religious, charitable, and private institutions of the city, which make it a valuable present record as well of an historical authority.

Every person should have at their business place or residence, or both, a directory of the city from time to time as published, not only as a daily convenience, but as a valuable record of local history.

Orders for our directories come to us from distant parts of this and foreign countries, showing that their circulation is not limited to the cities they represent.

Persons consulting the directory are reminded of the importance of knowing the precise spelling of a name before looking for it, as names pronounced the same are often spelled quite differently, and appear on different pages.

A full directory of Harvard College, Professors and Students will be found on page 430

For the support we receive from the business men of Cambridge, as well as the citizens who do business in Boston, we are under many obligations; also to the officers of the various societies and institutions for information furnished us, we present our thanks.

The following shows the increase in names over last year:

Names in Directory, 1885	23,672

INSTRUCTION TO KEY-HOLDERS.

Alarms are to be given from the box nearest the location of the fire.

To give an alarm, open the door, pull the hook to the bottom of the slot once, and let go.

Each box contains a small bell which, if heard before you pull, indicates that the alarm has been previously given. Any person listening at a box will learn the number of the box from which the alarm was given, but in no case will you pull the hook while the alarm is striking. After giving the alarm, remain at the box so as to direct the firemen to the fire. Be sure that you lock the box before leaving it. For instance, if an alarm proceeds from box 36, the bells and gongs attached will strike three; then. after a short pause, six consecutive blows, thus: III—IIIIII.

Don't give an alarm for a fire seen at a distance unless assistance is called for.

SIGNAL FOR NO SESSION OF THE GRAMMAR AND PRIMARY SCHOOLS ON DAYS OF SEVERE STORMS.

The signal is five strokes of the fire alarm repeated once.

When given at 8.15 A. M. the morning session of the grammar and primary schools will be omitted.

When given at 11.45 the morning session of the grammar schools will be prolonged one hour, and the afternoon session of the grammar and primary schools will be omitted.

When given at 12.45 the afternoon session of the grammar and primary schools will be omitted.

Citizens are earnestly requested to inform themselves where keys to the signal boxes are kept, signs suitably inscribed, being placed over each box, giving the requisite information.

HOMES AND INVESTMENTS

— IN THE —

Highlands of Florida.

The western part of Orange County, on the backbone of the State, known as the beautiful "LAKE REGION," is very high and rolling, and is filling up with unexampled rapidity. Where three years ago were unbroken pine woods are now thriving villages and flourishing *Orange Groves*. The climate is very salubrious, being tempered by continual breezes from the Atlantic and the Gulf.

Any who desire to select a home or start a grove can secure the services of the subscriber, who, after patient investigation of different localities, has recently moved there from Massachusetts. He will give his careful attention to any business entrusted to him.

LAND SELECTED AND TREES PLANTED AND CARED FOR.
